PROMOTING PRIORITIES FOR ACTION

London's Refugee Entrepreneurship Declaration

WHAT IS IT

A shared **statement of ambition** to support the expansion of business support services to 50% of London's refugee entrepreneurs.

WHOSE IT FOR

The declaration is for **public and private organisations and individuals** willing to support or expand services to include refugee entrepreneurs. The aim is to bring together the 20+ pre-existing organisations that are supporting refugee entrepreneurs in London, as well as inspiring new commitments from organisations not already involved in supporting this community.

HOW WILL IT BE USED

Signatories of the declaration will **be publicly announced in April** in advance of May's London Mayoral elections. The goal is to ensure refugee entrepreneurship remains on the radar of public authorities as we enter a new mayoral term.

HOW TO GET INVOLVED

TERN have published [a webpage](#) on the declaration and organisations are able to share & sign [here](#) the declaration throughout March.
